

trustID - Signing Made Easy

FROM HOME OR AT WORK: USE THE E-SIGNATURE FEATURE TO SIGN YOUR DOCUMENTS

Provides you with an easy and affordable e-Signature service. No extra software to download and always keep the control of your document as everything remains in your control.

Keep control on your document: your document doesn't leave your computer, only the digital certificate is exchanged between you and us.

From anywhere, faster, means save money for your organisation: your employees working remotely are able to e-sign within a minute.

TrustID's e-Signature uses your web browsers to directly sign your documentation. You don't have to update your workstations or install extra services. The trustID's e-Signature service is compatible with the most common web browsers such as Google Chrome, Internet Explorer, Microsoft Edge or Firefox.

Simply **login** into your trustID's account, **sign** a document and **approve** your signature through a push notification in your trustID's mobile application. Then **share** your document with anyone.

You care about the financial aspect? No bad surprises with the trustID's e-Signature service. Our attractive financial model provides you with a complete control of the cost.

KEY ADVANTAGES

Works out of the box: nothing to install, no changes in your IT environment, simply leverage on your web browser's capability.

Speed up your business activity: Don't lose connection with your business, no physical discussion or exchange needed.

Leverage on a strong multi-factor authentication: trustID is a digital identity provider solution with strong but easy to use multi-factor authentication options.

Full control on your document: The document will never leave your computer, only the hash of the document will be sent for signature.

Control of your investment: Full control on your cost as pricing is not related on your number of signatures.
